

BA (Hons) Learning, Technology & Research

learning technology research

“I have been successful in gaining a place... to do PGCE Primary. The University were extremely interested in my degree and the methods used to facilitate learning. They liked that I had learned to present information in a variety of ways and that I'd had some experience of doing a presentation... they were impressed that anyone could achieve First Class Honours in only 3 years”.

Liz Stephenson

completed studies January 2008

- Study 100% online
- Study with the support of experienced online tutors
- Belong to a supportive online community of fellow students
- Develop your career and get an Honours degree
- Base your studies on your work practice - learn and earn!
- Assessment by portfolio - no exams
- Graduate in just 3 years
- Start in September or February
- Proven approach to flexible study in the workplace. Students combine their study and their work

Our current students come from diverse work settings including: NHS, business advisers, armed forces personnel, librarians, school teaching assistants, administration staff and local government.

Through a problem-solving and inquiry-based learning approach you will study key concepts and develop skills that will enhance your career. Study:

- Personal Development Planning
- Models of reflective practice
- The use of online communication technologies
- Organisational learning
- Work-based projects

Assessment for each module is through an electronic portfolio: you will be encouraged to present your work in a variety of media.

Fees are £1,850 for academic year 2009/10 (payment support available).

Find out more about the degree content, read and listen to what our students say about us and apply online at www.anglia.ac.uk/ultraversity or telephone 0845 196 4302
